Aphasia.  
Good Salesman.  
Politics Start.  
Pope vs. Mussolini.

—By Arthur Brisbois  
(Copyright, 1931)

**POLICEMAN KEEPS WOMAN** of New York, 60, who has been missing since lady, fifty years old, said she did not know who she was or where she was. She was asked if she was anxious to see a colleague. "Can you tell?" she asked. "I am a woman. I am in a woman's trouble was called to the office by a man who means in Greek. 'Not to be seen.'"

The policeman was not surprised. Wonderful thing is that we all know where we are, and where we were at the moment. How will it be in the other side of the grave? "We are the policemen who are we, who we are, who we came?"

And what wonderful mechanism enables us to track our selves and identify ourselves each morning? ♦ ♦ ♦

**THE PRICE OF WHEAT,** champion of the cause after a boatless trip through South America, much of his trip by airplane, landed on a boatless castle yesterday afternoon.

An assistant salesman and his wife, who had been separated, were on their way to a hotel in Brandon, and they are prepared to show their father South American orders for gold coins, which he will not give dollars a year for several years. So many things as cancellations, but the Prince is a good salesman.

**Liberals Welcome Land Tax Proposal In Snowden Budget**

Associated Press Cable

LONDON, April 30.—Sir Herbert Morrison, Labour leader, said the next president of the University of Toronto, succeeding Sir Robert Borden, will be a "good man."

Castile late yesterday afternoon.

An assistant salesman and his wife, who had been separated, were on their way to a hotel in Brandon, and they are prepared to show their father South American orders for gold coins, which he will not give dollars a year for several years. So many things as cancellations, but the Prince is a good salesman.

**LATE U. S. political news, not guaranteed, is the: Governor Pinchot of Pennsylvania, and Rep. Tugman of Republicans, will not take the nomination from Mr. Coolidge on Page Three**

## Bennett Predicts Insurance Against Unemployment Here

Says Measure Will be Placed Before House as Soon as Necessary Vital Information is Obtained

## To SPEED UP PROBE WHEAT POOL AFFAIRS

**Commissioner E. K. Williams Announces Longer Sittings**

Associated Press

WINNIPEG, Man., April 30.—The much-disputed role of grain management will be clarified in Manitoba Wheat Pool hearings, Commissioner E. K. Williams, announced at this morning's session. The probe will begin on Friday and will be put in starting Monday and continuous session. He hoped the hearings would be completed by the end of the week.

The new sittings will be held at the present time.

The inquiry was made by T. J. Murray, C.C. counsel for the Wheat Pool.

Officially, the probe will be conducted by the inquiry committee.

At the earliest moment

"At the earliest possible moment," Commissioner Williams said. "Considerable weight obtaining information that is essential to make any decision on the probe is to have that information for the purpose of preparing and submitting to this committee a report on the matter I have expressed."

Williams said the information now lacking would be obtained through the inquiry to be held in the first time.

Continued on Page Two

OTTAWA, Ont., April 30.—Government has decided to place a pension measure before the House of Commons today. Estimates of the cost of the proposed pension, possibly of the department of labour, were not available.

Unemployment insurance coverage of the house all day yesterday. The subject was introduced by A. H. Aeppel, member for Winnipeg North, who introduced a resolution to prohibit the establishment of an insurance scheme for unemployment.

Although debate on the motion was concluded, it lasted

more than two hours.

Mr. Aeppel said the inquiry

was made by the Canadian

Commissioner of Unemployment

Insurance.

At the earliest possible moment,

"At the earliest possible moment," Commissioner Williams said. "Considerable weight obtaining information that is essential to make any decision on the probe is to have that information for the purpose of preparing and submitting to this committee a report on the matter I have expressed."

Williams said the information now

lacking would be obtained through the inquiry to be held in the first time.

## If It Will Help Alberta The EDMONTON BULLETIN IS FOR IT

THURSDAY, APRIL 30, 1931

### SECTIONALISM DOES NOT PAY

There is talk in the maritime provinces of a movement to boycott Ontario products, unless the members of the maritime are to be helped and in talk. That at least is to be hoped. Once such interprovincial boycotting were started, there is no telling where it would end.

The people of one province can find reasons for thinking that the people of other provinces do not buy enough of their products. If thinking that were accepted as proper ground for a boycott, reprisals would follow as a matter of course, and the Dominion would become embroiled in a general war of trade, engaged in the bottomless business of trying to injure each other. Prosperity cannot be reached by that road.

### TIDING OVER\*

Mr. Snowden has obviously, and admittedly, adopted a budget of expedient to bridge the gap of \$180,000,000 between the probable revenue and the planned expenditure of the Government of Great Britain during the coming fiscal period.

He proposes to take \$100,000,000 from the fund that has been maintained in New York ever since war days to stabilize exchange. And the date for the payment of income tax will be advanced so as to provide the bulk of the taxes fall due within this fiscal period.

These, the Chancellor explains, are temporary measures by which it is hoped to meet a temporary situation. For the following hints on a recovery of trade and his new land tax scheme to provide the funds required.

Britain, thus, is to say, is treating the deficit as an extraordinary loss to be met by expeditors, rather than by a dramatic reduction in public expenditure. This will contribute nothing to this year's revenue; and would probably have been brought into operation as a permanent impost, if there had been no deficit in prospect.

Another government has thus taken the ground that government financing in a time of depression should be along a line similar to that adopted in time of war; rather than that it should be done by the most extreme extract revenue from the hard-pressed taxpayers to meet the loss in a single year. The Government at Ottawa, it is to be hoped, will follow suit. This is a poor time to try to take money out of pockets, which are uncommonly flabby.

### JUST CAN'T BELIEVE IT

Those who recall the speeches which Mr. Bennett made last summer will read with some amusement, and also with amazement, his accusation that certain western members have been "exploiting distress" because they put before parliament the hard circumstances which now surround us, and confront the western farmer.

No western member has attempted to portray the position of western agriculture in the field colors in which Mr. Bennett painted it when he spoke a year ago. Not all the other western members together could find language to match that in which he depicted Canada as a country of idle men and starving families.

The obvious retort is to say that if the western members in question have been "exploiting distress" during the recent weeks, Mr. Bennett was doing precisely the same thing in his picturesque expressionism, which he apparently got political support last summer. But the truth is that in neither case has there been conscious exaggeration or a deliberate attempt to exploit misfortunes for political effect.

The tragedy of the situation is that Mr. Bennett actually believes western farmers are a good deal better off than they are. He simply cannot conceive that they are the pitiful ones and in any more than he could a year ago, have drawn to earth and discuss unemployment on the basis of facts and figures. Mr. Bennett in opposition would today be painting the picture of western agriculture in colors more distressing than any that a western member has used.

### STILL CANADA'S CENTURY

There will be unanimous agreement that Sir Josiah Stamp took safe ground when he said the present paralytic condition of world trade is not likely to show any marked improvement for three months at least.

Unfortunately, the evidence is all in that direction. The outlook is for a quiet summer, compared with the fevered activity of some recent years. Perhaps the season that is approaching behind the clouds, and perhaps stop raining about what is not likely to happen the better. Making the best of things as they are, and not wasting nervous energy trying to forecast what may be, does not look like a good way to go just now.

Sir Josiah's further remark, that when the tide turns Canada will respond quickly to the change of current, may be taken as something more than a courteous expression of good wishes. The economist would have pointed to substantial facts to verify his prediction had he chosen to do so.

The resources of the Dominion have not been shifted to some other part of the world, and are as large and varied as they ever were, and they are still ours. When the world is once again ready to do business it will find Canada doing business at the old stand, and on a larger and steadily enlarging scale.

It is still true that this century "belongs" to Canada. The return of normal world conditions, whenever it may come, will create as many opportunities as there ever were in this country for the exercise of initiative and industry, with as large rewards offered for well-directed ambition.

A vote will be taken at the house of T. Daly, Clever Club, on Monday, by the members of the Canadian Legion, to determine whether the greater part of townships 53, range 23, south, will be annexed to Edmonton.

Louis W. Birrell and family arrived from North Dakota on Friday with several wagon loads of effects.

Mr. Thos. H. Tupper, buyer for P. Burns, beef contractor for the C and W railway, arrived last week. He paid \$1000 for a steer and offered \$6 cents a pound without securing any, as farmers were not willing to sell.

Mrs. Brett and Beta of the Northwest council have been appointed by the Lieutenant Governor to go to the United States to represent the women of Alberta in the national conference of the American Red Cross.

The spread of small pox in Ontario is alarming. The Yukon cleanup is estimated at \$100,000,000. The Canadian government has sent a special engineer who planned the destruction of the Johannesburg mines in the spring of last year.

Mr. John L. Thompson, former minister to the men of the Canadian contingent who went to South Africa.

Lord Kitchener continues to wear down the Boers, who are still continuing to fight in the Kruinrand.

They recently detailed two trains and captured 22 Boer prisoners. The Dernier Australian front at Cape Town wrecked the office of South African News.

Men and women are continuing to return to the men of the Canadian contingent who went to South Africa.

# Murder and Suicide Is Verdict at Sask. Inquest

## Two Indians Found Dead On Reserve

Norman Valentine Arrested. Charged With Selling Liquor to an Indian

Canadian Press

CARLTON, Sask., April 29.—Findings of inquests held yesterday in connection with the deaths of Mamias, a reserve Indian, and his squaw, Annie, were returned to the coroner. The inquests on a charge of selling liquor to an Indian were the results of an inquest held yesterday by Justice W. H. Steepe, into the deaths of the two Indians, whose bodies were found near Carlton, about one-half of the way west of White Bear Indian reserve.

Witnesses said:

"We, the jury, are of the opinion that Annie Mamias, mother of the murdered woman, and Jack Sheepskin, a son of the deceased, are guilty of the killing."

Eighteen witnesses were called at the inquest, which opened at two o'clock in the afternoon and continued with only an hour's break between the sessions. It adjourned at 6 p.m. in the evening.

Dr. C. H. Stephenson, coroner, concluded the investigation.

Valentine's arrest followed evidence

that he had been serving liquor to Indians.

### Vice-President

P. R. GARDNER.

member of the Toronto Stock Exchange, Vice-President of the Atlantic Sugar company,

given by Mrs. Ginger, mother of the murdered woman, and Jack Sheepskin, a son of the deceased, are guilty of the killing,"

the coroner said.

Witnesses said:

"We, the jury, are of the opinion that Annie Mamias, mother of the murdered woman, and Jack Sheepskin, a son of the deceased, are guilty of the killing."

Eighteen witnesses were called at the inquest, which opened at two o'clock in the afternoon and continued with only an hour's break between the sessions. It adjourned at 6 p.m. in the evening.

Dr. C. H. Stephenson, coroner, concluded the investigation.

### 70 Per Cent. Wheat Sown In Manitoba

Canadian Press  
WINNIPEG, Man., April 29.—About 70 per cent. of the wheat acreage has been sown, according to reports of the Manitoba department of agriculture and statistics. Practically no water lies on the land anywhere.

Everywhere there is need of early rain. Sloughs and creeks are drying up, and the soil is becoming dry and moisture for stock and to start the seed into growth. The most promising growth would be wheat.

**Social Service Body Meets At St. John**

Canadian Press  
SAINT JOHN, N.B., April 29.—Necessity for redemptive work among inmates of the provincial penitentiary county jail, and the realization that such prisoners are "persons" and not "things," were the main points of discussion at the annual session of the social service committee of the Canadian Catholic Conference.

Recommendations included in the report of the chairman of the committee, Rev. W. H. Aloock of Regina, included the following:

"In view of the postscript statement that the bottle found near the bodies contained arsenic fit for human consumption, it is recommended that the coroner, Dr. J. W. C. Bolloway, Irvin Hallard, K.C., act as medical examiner in the trial of prisoners, in a desire for reforms in the medical department. Other recommendations included the proposal for a court in inquest time to be found for sufficient time to be used as murder and other serious cases, and some small financial remuneration for work."

### Two New Directors Of Famous Players

Canadian Press  
TORONTO, Ont., April 29.—S. Mandelbaum, president of Quebec and Motor Company of Canada and Victor Ross, vice-president Imperial Motion Picture Co., Ltd., have filled two vacancies on the board of Famous Players Canadian Pictures, a subsidiary of the Canadian International circuit of shareholders. The retiring directors were A. L. Frazee and E. C. Hart.

President Adolph Zukor appointed the chair and the incoming president of the Canadian International circuit, J. L. Thompson, to the vice-chairman position.

President Zukor also appointed the chair and the incoming president of the Canadian International circuit, J. L. Thompson, to the vice-chairman position.

Recommendations included in the report of the chairman of the committee, Rev. W. H. Aloock of Regina, included the following:

"In view of the postscript statement that the bottle found near the bodies contained arsenic fit for human consumption, it is recommended that the coroner, Dr. J. W. C. Bolloway, Irvin Hallard, K.C., act as medical examiner in the trial of prisoners, in a desire for reforms in the medical department. Other recommendations included the proposal for a court in inquest time to be used as murder and other serious cases, and some small financial remuneration for work."

### DARROW SCORES MOVIE CENSORS

Says System is Chiefly Motivated by Selfishness

Canadian Press  
MAY 1, 1931.—April 29—The search for membership in April was largely for selfishness. People like to control the world, and they like to control others. Such methods as long as their own desires are not interfered with, will be adopted.

President Adolph Zukor, president of the Canadian International circuit, told members of the Association of Motion Picture Advertisers, Inc., at a luncheon. He added:

"That the fight for freedom is not a matter of money, but of principles. The rights of all must be considered. I believe in freedom of speech and action for all."

"That even applies to the church. Men in the church do not want blue Sunday clothes. They want to wear blue Sunday clothes because they can in no other way express their religious feelings. They fear that if they must compete with gold and the movies, their pews will be empty."

"Some preachers define sin as what a man does, and not what he doesn't want to do. Many ministers set themselves up as scientists and say that they know what men are merely suffering mental aberrations."

The ideal legislator seems to be one who can leave his church freely because he hasn't anything to tax."

## RISE TO Greater HEIGHTS!

The Aeroplane, which enables man to soar above the clouds, cross continents and span oceans—first existed subjectively in a man's sub-conscious mind. In imagination, man soared upon wings long before such a thing as mechanical aircraft made its appearance, and if he hadn't he would still be climbing trees.

The world will advance. Many men and women now unknown, will rise to fame through their contributions to the welfare of humanity, in various ways. Many wonderful inventions will amaze the world. They have not yet been heard of—but they exist already in that mysterious realm of the subconscious mind.

Among the wonderful things we are beginning to discover is the secret of ordinary handwriting. Everybody writes differently because of their different characteristics, abilities and temperamental peculiarities. This belongs to the science known as

## GRAPHOLOGY

Your finger prints tell who you are beyond all question of doubt—Equally free from all doubt is the fact that your handwriting reveals what you are.

**Your Handwriting Reveals Your Gifts and Aptitudes and Characteristics**

## ANDRIENNE

—by her knowledge of handwriting holds a key to the sub-conscious mind where people often conceal the very best that lies within them.

### DO YOU ALWAYS FAIL IN YOUR EFFORTS?

Perhaps in spite of all your efforts, you persistently fail to achieve your desire. The reason for your failure may be due to some unsuspected mental complex that would be clearly revealed by your Handwriting to a qualified graphologist.

Andrienne will be in Edmonton for a limited time only. If you wish her to analyse your handwriting, read the conditions carefully

### HOW TO GET A HANDWRITING ANALYSIS

Send a sample of your ORDINARY HANDWRITING consisting of not more than FORTY (40) words (in our last ad. "Twenty" was printed by mistake). Enclose it with a classified ad. with remittance for insertion (not less than \$10). If you or your friends have nothing to advertise fill out the form at the bottom of this ad. and forward with \$10 to cover four weeks subscription in advance.

## Communist Leaders Plan May Parade Here

### RALLY STAGED WEDNESDAY IN MARKT'S SQUARE

#### Demonstration on Friday Will Probably be of Peaceful Nature

Not all will share the opinion that May Day parade Friday evening, starting from the Market Square at 6:30 p.m., will be peaceful. Some Communists are demonstrating at a meeting held in a Ukrainian hall on Thursday.

The rank and file were made aware

that they had to support their cause

though they had to do it in a little

French novelties.

**Dear Skipper:** Take a look around you, and you will easily understand why we have had drivers scuffle each other and their patrons."

—The Red Egg from Crows Head.

Patrick H. T. Toss, a west-bound train for the coast. On board the train: D. L. French, Mrs. French, their two sons, two nieces, three daughters. They were friends. They became engaged in 1927, were married in Los Angeles "over" right away. The majority of their presents were made by the bridegroom's parents. They had to have something because they though they had to support him.

—The Red Egg from Crows Head.

monton beautification campaign.

## Clean Up!

Don't scratch your head and wonder where this-or-that came from — what it's all about, or where it belongs—get some more office equipment with an up-to-the-minute filing system and KNOW.

Muddle means grief, and muddle and grit are the very worst kind of thing for business. The right sort of OFFICE EQUIPMENT will reduce your office routine to a system that functions like clockwork.

### Heads Campaign

GEORGE BUCHANAN  
Who was again elected general chair-  
man of the Home and City Beauti-  
fication Campaign.

bility distinguished throughout the city. It is the responsibility of all citizens to help in the beautification of their city, and the best way to do this is by personally cleaning up each his own premises and by urging his neighbors to do likewise. Friends and friends. The area to be covered is great, and the crusade against dirt and debris which does his part the end of the week.

### CITY CARTS USED

Each resident should, as early in the week as possible, get a permit for the removal of all rubbish and waste material, burning what he can, and collecting the rest in a wheelbarrow or cart, kept in one convenient place in his home, where it will readily be accessible to the cleaning-up crews. The day on which these carts will collect in the notice advertised elsewhere in the Bulletin, or in the printed hand-

bill distributed throughout the city. If the residents are still after the general improvement of his own premises, the first step is to remove all debris and to the removal of these rubbish heaps as far as possible from the streets and lawns. Monday, being Arbor Day is an excellent day to commence work on the beautification of the streets and lawns. The day after Saturday morning, beginning Thursday, Friday and Saturday three men carrying clean-up banners would parade through the city to call attention to interest public-spirited citizens to the importance of making their town more beautiful.

Officials in charge state that 1,000 men will be required to clean up the city during Friday afternoon and Saturday morning. The men will contain information with regard to the yearly clean-up, clean-up campaign, and the beautification of the city to the dates when the garbage carts will be in service. This information which information is carried in this edition of the Bulletin.

E. W. Keene, chairman of the ti-

me committee for the campaign, stated that the collection figures for the year of the campaign have fallen below those received in the previous year. However, however, that Edmontonians will be asked to do their share in order that Edmonton may in short order be "City Beautiful".

The heads of the paint-up section, reported that the sale of paint in city stores was increasing.

It is hoped that the city is fast disappearing, and it is expected that the new beautification campaign will present the bright and neat appearance for which it is justly noted.

GEO. BUCHANAN  
AGAIN ELECTED  
CAMPAIGN HEAD

### All in Readiness for Drive On Refuse Monday, Arbor Day

With the distribution of pamphlets dealing with the beautification of the city, Edmonton has been making preparations for the annual beautification campaign, and next Saturday, which is Arbor Day, will see the removal of all debris and trash, and barrow against the annual annual beautification.

At the recent meeting of members of the campaign committee, the following officers were elected: Geo. L. Buchanan, general chairman; Geo. L. McKee, campaign secretary; W. G. Keene, chairman of the paint-up committee; W. H. B. Jenkins, chairman of the health committee; A. Rendall, chairman of the tree-planting committee; and E. W. Keene, chairman of the ti-

me committee for the beautification of the streets and lawns. The day after Saturday morning, beginning Thursday,

Friday and Saturday three men carrying clean-up banners would parade

through the city to call attention to interest public-spirited citizens to the importance of making their town more beautiful.

It is hoped that the city is fast disappearing, and it is expected that the new beautification campaign will present the bright and neat appearance for which it is justly noted.

### Plumber Refuses To Fix Own Pipe

Bulletin News Special

CHICAGO April 30—William Mc-

Keefe, a plumber, is the last

plumber to be engaged in that line

of work wouldn't even accept

an offer of \$100 to divorce his wife

filed Thursday.

Mr. McKeefe said that when a pipe burst in his home last Sunday, the place was flooded because he refused to pay the bill.

"On Sunday," he quoted him as

saying, "I'd go against the union rule

of 'No fixture'."

McKeefe, chairman of the paint-up committee, M. L. Hill, chairman of the tree-planting committee, W. H. Jenkins, chairman of the health committee, and A. Rendall, chairman of the clean-up campaign; A. Rendall, chairman of the tree-planting committee, and E. W. Keene, chairman of the ti-

me committee for the beautification of the streets and lawns. The day after Saturday morning, beginning Thursday,

Friday and Saturday three men carrying clean-up banners would parade

through the city to call attention to interest public-spirited citizens to the importance of making their town more beautiful.

Officials in charge state that 1,000 men will be required to clean up the city during Friday afternoon and Saturday morning. The men will contain information with regard to the yearly clean-up, clean-up campaign, and the beautification of the city to the dates when the garbage carts will be in service. This information which information is carried in this edition of the Bulletin.

\*\*\*\* Gainer's Superiors Play Draw With Radial Rovers in First Division League Game

MUCH INTEREST IS CREATED BY COMING MATCH

Wide Attention Given  
Wrestling Bout at Vegreville

Referees to Edmonton Bulletin  
VANCOUVER, April 29.—Interest in the Stanley Cup final between the Detroit Red Wings and the St. Louis Blues was staged here on May 4.

But a local wrestling meeting will be staged in front of the grandstand at the Rialto, downtown. All will be held in the same place, and both bouts will be held indoors, either at the Armory, which has a large seating capacity, or at the Rialto.

It had been the intention to stage the first bout at the Rialto, but the city would not let the arena comfortably seat a couple of thousand spectators, but it is doubtful if the city will let the Rialto hold the second.

The second bout will be held at the Armory, which has ample room for spectators.

Chief McNamee, Ontario wres-

tler, said he would like to see the second bout at the Rialto.

It is understood a special trial will be held at the Rialto for the first fight, while large posters will move in from the city to the Rialto.

Stanley Cup champion, and other can-

ceremony, will be in charge of local arrangements.

This will be the first appearance of the world famous blues from Western Canada.

**Montreal Wins First Cage Title**

Associated Press

Montreal, Que., April 30.—Montreal's Kestrel Club, denoted "The Invincibles," defeated Wil-Gor, Ontario, Arrows here last night by the score of 28-20, winning the Canadian championship.

The second game will be played tonight, the winner to meet MacLean's Red Devils, of Montreal, N. B., for

Americans Deny Rumored Trade

Associated Press

NEW YORK, N. Y., April 30.—The officers of the American Legion here denied there were any negotiations pending with Terence J. Donahue, president of the Legion, and Frank Hines, the American's star center, to the Canadian club in exchange for Andy Blatt and Alex Lennox.
